

During a visit in January 2007, by one of the trustees, Chris Hulme registered the charity in Kenya during our visit, the Kenyan name is Operation Imprezza Africa Trust. This is a non-profit making trust, any surplus monies have to be re-invested in the project. While we continue to fund raise to purchase land and build a school we are actively seeking to rent a suitable building, depending on location, either for a day or boarding school. We hope it will be in a better environment than the current site which will benefit students and staff.
