

## LOOKING TO THE FUTURE

Following Catherine's recent visit when we reflected on past achievements, and there have been many in spite of the hardships and deprivations suffered, we are also looking forward to the next twenty years and much still remains to be done.

According to the education department the school will be required to take in additional students as from 2024. This will mean additional classrooms, dormitories and educational resources such as text books, computers, etc. We have a number of grant applications being considered, the latest about to be submitted is to the Clive Richards Foundation.

There are plans for a three storey building to house the extra students we will be required to take along with additional dormitories, etc,. Work has already commenced on the ground floor with the foundations just being laid. **This will require a special extra effort to raise the additional funds to complete this building so if you or anyone you know can donate or support our fundraising please let us know.**

As reported in our last newsletter Catherine is looking to increase the agricultural profile so that more food can be produced in our own fields as well as the rearing of hens, rabbits and a few cows.

**N.B. To this end we have recently received a very generous donation from the Newton Abbot Rotary Club which has also been match funded to help complete our Dairy Cow Housing Project. Many thanks.**

Foundation floor being laid for the ground floor of the new three storey building housing a dining area, teaching areas and dormitories.

# FUTURE FUNDRAISERS

Help us win £1,000.  
Please nominate  
us today!
